

A modern living room interior featuring a wall of acoustic panels made of vertical wooden slats. In the foreground, there is a green leather sofa with several pillows, a round coffee table, and a small plant. The floor is light-colored wood.

ACOUSTIC WALL PANEL COLLECTION

ACOUSTIC WALL PANEL

With Decorative Acoustic Panels, Both Elegance and Functionality

Today, offering both aesthetics and functionality makes spaces more practical.

As **BRODECOR**, we provide panels that will add color to your decor while also helping with sound insulation through thick felt panels.

Our panels, made of MDF strips covered with PVC foil on felt, offer not only elegance but also practical and aesthetic solutions that can be comfortably used in both your home and office.

You can easily use our acoustic panels in various spaces such as meeting rooms, hotels, cinemas, and studios to ensure sound insulation.
